

M400 Thermal RifleScope / Monocular

FEATURES:

1. Detecting and hot tracking the drones

2. Can be used as riflescope or handheld thermal Monocular (**after the rail and LRF is removed**)
3. Uncooled infrared detector, High-resolution OLED color display (1024 * 768)
4. Low power consumption design, over 8 hours of continues operation
5. Simple and fast operation, easily interface and ergonomic design
6. Video out and hot tracking
7. Anti-leakage objective, easy to be concealed
10. 5 patterns of reticles & 4 colors of reticles
11. Protection level: IP67, water resistant, high reliability, rugged and durable
12. Optional Attached Laser range finder **and range can be displayed on the screen of the scope**

13. Can be used on AK47, M16, HK416, PKM rifles

SPECIFICATION:

Model	M400
Detector	uncooled infrared detector
Specturm range	8~14μm
Resolution (pixel)	384x288 / 640X480
Focus	42mm, F1.0
Frame rate	50HZ or 25 HZ, can be adjusted.
Magnification	4 X
Eyepiece	HD OLED
Wifi	Optional
OLED resolution	1024*768
Reticle	5 parterns
Image mode	White hot,Black hote,Red hot,IR color, Sky blue,out lined
Zoom	1X/2X/4X
Battery	2 Rechargable 18650 / 3.7V lithium batteryies
Video out	PAL (analogue)
Working endurance	≥8 H
Working temperature	-30℃~ +55℃ / -22~ +131F
Weight	≤550g / 19.40oz (Without battery)
Size	176mm× 80mm×72mm / 6.93”X 3.15”X 2.83”
Impact resistance	6000 J (1000G customization)
Attached external LRF (optional)	1000 meters (can be displayed on the screen of the scope)
Detection range (human)	800meter-1200meters
